Trade from Central Wisconsin.

The Chicago Democratic Press notices with much satisfaction the opening of various Rail Read routes leading Westwardly and Northwest-wardly from that City, and anticipates that with their completion "almost the entire current of trade and travel" from Central Wisconsin, will seek Chicago, rather than Milwaukee, as an outlet. The Press address several reasons for this belief, of which we cite the following as specimuch satisfaction the opening of various Rail Road routes leading Westwardly and Northwestpelief, of which we cite the following as specimen bricks :

Washington, Thursday, Dec. 29, 1853.

People will naturally inquire, before the Wintergales are over, what is likely to be the stion of Congress with reference to River and Harbor Improvements. The President's inferential recommendation, that power be given to States to levy tonuage duties for the purpose of raising a fixed to make these improvements, will not result in any favorable action. No such measure will pass the House of Representatives, strongly Democratic as it is. It will be killed in the House by a combination of the Representatives from the States occupying the Valley of the Mississippi and the great States of the North-west, because a system of tourage duties such as is proposed must be utterly inchiclent in afferding the required aid to the poorer States, which most need the Ordinance. posed must be utterly memclett in allering the required aid to the poorer States, which most need these improvements, and are least able to make them, while it will give to the rich States of the Atlantic border a great excess of means. Thus, the system will be one of gross inequalities, no more to be defended than a domestic postal system which would fall to furnish mail service to the specific towns and the more citizens and the smaller towns, and the poorer citizens, and give these facilities of intercommunication to the populous cities, and its richer classes, who furnish a large amount of Post Office business. ish a large amount or rost time outsides. Our one Benton is violently opposed to the proposition and is quite prepared to give it a scathing reception, doubtless, whenever it will come up.
Col. Benton, I learn also, is entirely opposed to Secretary Dobbin's recommendation, and the bill based thereon, and now pending in Congress, for building six new naval steamers. There seems likely to be a conflict upon this subject between the friends of the Navy and the Pacific Railroad men, some of the latter looking upon the steamer the friends of the Navy and the Pacific Railroad men, some of the latter looking upon the steamer proposition as a more ruse to defeat the Railroad project. If this feeling exists, Mr. Dobbin certainly will not get his steamers unless the Railroad scheme shall also have practical, decisive and favorable consideration. The Railroad men content that it is not a Navy we need for the protection of our Pacific possessions, but a Railroad that shall bind us to them, and afford us read to communicating from ocean to ocean, across.

road that shall bind us to them, and afford us rapid communication from ocean to ocean, across our own tenitory.

The friends of the Homestead bill will need exert their utmost influence if they would secure the passage of that measure by the present Congress. It is certainly in great danger of defeat through the means of specialtors, who want grants of land, under the pretence of building millroads. The President's recommendation, also, in his Message, favoring the old land sale system, and incidentally discouraging the plan of giving away lands, will have the influence against the Homestead bill, which will be cushed, most Homestead bill, which will be crushed, most likely, in the combination of antagonistic interests.

The Poer Trane at Louisville.—The Louisville people are crowing over the fact that more hogs have been slaughtered this season at their city than at Cincinnati, the great Portopolis of the west. The Courier says the season will end with Thursday, when the 'big hog dies;" and when his blood mingles with his kindred ewine a shout will go up from the shores of the blood red Beargrass sea, the reverberation of which shall be hard even to the hills around Cincinnati, the ancient Hogopolis, announcing to the inhabitants thereabout that their glory had departed, that Louisville assumes the sceptre and the sway; that the city at the Falls of the Ohio is the Porkopolis of the mation, the meat-repolis of the world, that she has slaughtered this season 835,000 HOGS.

Last year the whole number killed around the Falls was but 301,000. This year they have exceeded that amount by \$4,000, beating Cincinnati by 40,000.—Detroit Adv.

NARROW ESCAPE.—Our old friend, B. F. Fay, was married a few days ago at Milliard, in this county, and was returning to Prairie du Chien, with his lady, in a sleigh. In crossing the Wisconsin, the ice proved treacherous, the horses broke through and were lost, and the sleigh such in 16 feet water, Mr. and Mrs. Fay narrowly escaping with their lives. This is decidedly a "cool" beginning to a honeymoon. The trunks belonging to the party we understand went down with the eleigh. We congratulate friend Fay upon this fortunate escape of himself and bilde.—Watertown Register.

We give below a variety of statements relative to pork
markets in other places. By lake dares from Louisville,
Ky, we learn that, for the first time, that city leads Cincinhalt in the number of hoge slaughtered, the aggregate of he former being 355,000, and of the latter 40,000 less. From the St. Louis Intelligencer's review of the Pork market, January 2d, we have the following:

market, January 2d, we have the following:

The total arrivals at Cincinnati to the 28th of Cecember were 279 275, against 233,340 to the same time the year previous, showing a deficiency of \$2,465. At Louisville to the same date they and an increase of \$4,000 hand, making the number at both points about equal to that of the preceding year. But at Madison and other points on the Ohio they were greatly behind whom last heard from. Say over 60,400 at Madison, Jefferdamville and New Albany.—The total number slied at Claricand last season was 361,000, the arrivals to the 28th being 279,375, leaves a difference between the number slaughtered last season and the arrivals of this 34,126 head.

From all parts of the far west \$2,75 to \$4 are the extreme quotations, and we may here remark that \$,75 and \$3 are the offering prices at the points noted above, but there had been up to the lattest information, few or no saies so low. \$2, 583 are the offering prices on the upper nisasissippl above the Rapids, but packers had been enabled to ottain few or once below \$3, and in for but few even at that price. Below the rapids from Keckuk to the mouth of the Illinois, 35 to 3,76 are the privalling rates. At Alrou Sto \$4. Along the Illinois river from Provise to Naples, 3,55 to 3,75 are the prival figures, and for a few sextra \$4 has been paid at one or two points.

Thus stands the hog market at the close of the year 1853.

HOLLOWAY'S PILLS. These Palls being composed entirely of medicinal herbs are of a most harmless nature, while the extraordinary virtues they poasess have rendered them universally popular in nearly every part of the world. The insurence ancess they have met with throughout the States is most extraordinary, owing, it is presumed, to their wonderful efficacy to the cure of Billous complaints and disorders of the Liver and Stomach. Persons who preserves in using them in accordance with the directions, seldom fail in being restored to health. WEAKNESS AND DEBILITY,—RESTORATION TO HEALTH OF A GENTLEMAN, AGED 45, WHEN AT DEATH'S DOOR.

tion. St. Philips, wear Hath, Somermanire, 19th Abgun, 1853.

To Propressors Holloway.

Bir,—A Mr. Joseph Pixton, formerly a recident of this place, had been in a declining state of health for upwards of three pers, gradually wasting away to a shadow by nightly perspirations and want of appetite, which caused great meanivess to his friends, as he had consulted twa loos medical men in Bath, without effect. He at last used your Fills, and under providence was restored to health by their means. He lately emigrated to New York, and has just written to say, that he was never better in health, and desired me to acquaint you with the dremmatance. I ought also to mention, that my wife had derived great henefit from the use of your Fills.

Termin, Sir, yours respectfully, CHANLE 3 SMITH, Dissenting Minister.

PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS DURATION. Copy of a Letter from Mr. Gomis, Chemist, Yeavil, to Professor Holloway. To Professor Holloway.

Dear Sir—in this district your Fills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Billious Complaints I may mention the following case. A large of this town with whom I am personally acquainted, for years was a seven stofferer from disease of the Liver and ligestive organs; her medicalateudant assured her that he could do nothing to relieve her utferings, and it was not likely sive could curvice many months. This amonumement maturally caused great slarm among; her feiends and reliations, and they induced have to make a trial of your Fills, which so improved her general health that also was induced to continue them until so received a perfect cure. This is twelve months ago, and site has not experienced any symptoms of relapse, and often declares that your Fills have been the means of swings her file.

Do A. G. Biago, & Co., Gents:—Tou will probably recollect that I called into your establishment some three weeks since and purchased a fifty cent bottle of your "Mexican Marsinan Linemat." My object in doing to was to try its merits upon my daughter's arm, who has been soffering from the effects of a severe dislocation of the clow for several years past.

The expreciating pain consequent upon a false setting of the bone had dwindled and contracted her arm to a puny size, and I considered it a drity devolving upon me to acquaint the community of the beneficial effect your Liminent has produced.

Her arm was drawn to a right angle, and was almost increased semiling our invaluable Liminent was applied, since which time I am happy to state she has enjoyed uninterrupted good strength, and can use her arm nearly as pliantly as before it was falsocated.

I would stake, however, that prior to trying your unquilled Liminent, I used several other remedies but with out the least hendelial result.

MR. EUROR:—As a matter of great importance to the afflicted, I wish to make the following statement: About six years ago, my wife was attacked with a slight stroke of dumb pulsy. The whole of her right side and timbs were partially paralyzed. A doctor was called, who blad her copiously in the right arm, which relieved her, and she right one more symptoms of parolysis, ustil last fall, when the right arm gradually became weak and powerless. Both lines and the whole of her right side soon became perfectly benumbed, and all volustary motion was entirey suspended. She was beleagain, but without any relief. Even her tongue became paralyzed, so that she could not, at times, speak so as to be understood. She had a brother, Thos. Utley, a boy fourteen years old, who had some time previously been cursed of a very severe strack of the same disease, by the use of three bottles of the MESTANG LIN-IMENT, and we determined to try it in her case, as he had been under the treatment of total continuous mental without any apparent benefit. I obtained one bottle, and commenced buthing the whole affected side and limbs—The effect was truly astendabing. In less than a mouth crevy aymptom of the disease had disappeared. She can use her finds as freedy as ever, and no impediment whatever exists in her articulation. In fact the is perfectly oursel; and we bless the day we were induced to use this invaluable Lindment.—EDWARD UFMEYER.
FRIUES of THE LINIMENT—It is put up in bottles of these dises, and retails at 25 cents, 50 cents and 31 per hottle. The Sci cent and 31 bottles contain fitty and one hundred per cent. more liniment, in proportion to their cost so that money is sweet by buying the larger size.

(From the Boston Bec.)

The Editor said, Dec. 22d: "Dr. Hoofiand's celebrated Carman Bitters, for the cure of Liver Complaint, Jaundlee, Dryspepsia, Chronic or Nervous Debility, is deserved by one of the mest popular medicines of the day. These Bitters have been used by thousands, and a friend at our clow says he has himself received an effectualized permanenture of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomeths with safety, under any elecunstances. We are speaking from experience, and to the milieted we advisathed use."

Scorr's Weikly.

One of the best literary papers published, said, August 2
"The Hoor/aw's Garman Burress, manufactured by D.
Joelson, see now recommended by some of the most prominent members of the faculty, as an article of unucle elicacy in cases of female weakness. As such is the case, we
would advise all multiers to obtain a bottle, and thus save
themselves much sickness. Ferson of disblittated constitution will find those Eitters advantageous to health, as we
know from experience the salutary effect they have upon
weaksystems."

MORE EVIDENCE. MORE EVIDENCE.

The Hon. C. D. HINELINE, Mayor of the City of Camdon N. I., soys:

"Hoovitan's Gammas Biretins.—We have seen many flattering notices of this medicine, and the source from which the came induced us to make inquity respecting its merits. From inquity we were persuantly respecting its merits. From inquity we were persuantly respecting its merits. From inquity we were persuantly respecting its memics. From inquity we were persuantly respecting its memics we found it specifies in its section upon nervous protration is really surprising. Realms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

"If this medicine was more generally used, we are mitiged there would be less sickness, as from the stomach, tirer, and nervous system the great majority of real and imaginary diseases emanate. Have them in a beathly condition, and you can bid defiance to epidemics generally—This extraordinary medicine we would advise, our friends who are at all indisposed, to give a trial—twill recommend itself. It should, in fact, be in every ismily. No other medicine can produce such eridences of merit."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrum ocmbined, a fact that can easily be established, and thity proving that a scientific preparation will meet with their quiet approval whon presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calome in all this own of the mean of the province of the second with the province of the immediate. They can be administered to Fernales or infinite withsafely and reliable benefit, at my time.

They this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after The Hou. C. D. Hineline, Mayor of the City of Camdon
